They work for any word list, elementary to high school. Learning new words is like adding to your writing toolbox.</p>  <p style="text-align: center;">"Coloring the -ad Family Word Picture" (Prep class)</p> <p>In a "Coloring the -ad Family Word Picture" activity for a prep class, begin by introducing the -ad family of words, such as "bad," "mad," and "sad." Provide each student with a picture worksheet featuring illustrations related to these words. For example, you might have a picture of a sad face, a mad dog, or a bad weather scene. Ask students to color the pictures according to the -ad word associated with them. For instance, they could color the sad face with blue to represent sadness, the mad dog with red to symbolize anger, and so on.</p> <p>As they color, discuss the meaning of each -ad word and how it relates to the picture. This activity helps reinforce phonics skills and vocabulary while engaging students in a fun, hands-on way.</p>
