

REPORT OF THE ACTIVITIES CONDUCTED IN THE MONTH OF AUGUST 2024

SUBJECTS	ACTIVITIES
ENGLISH	<p data-bbox="695 436 1073 464" style="text-align: center;">Thumb Impression on Letters</p> <p data-bbox="410 499 1360 663">The Thumb Impression on Letters activity is a creative and educational exercise for young children that helps develop fine motor skills, enhances letter recognition, and makes learning enjoyable. By combining art with literacy, children engage in a fun and effective way to learn about letters and express their creativity.</p>  <p data-bbox="813 1482 954 1509" style="text-align: center;">Letter Craft</p> <p data-bbox="428 1518 1344 1614">Engaging in letter craft activities, such as cutting, gluing, and drawing, helps children develop fine motor skills and hand-eye coordination. These skills are crucial for writing and other precise tasks.</p>

"Music Chair Alphabet Song" (Prep)

In the "Music Chair Alphabet Song" game for a prep class, set up a circle of chairs, one fewer than the number of students. Play an alphabet song while students walk around the chairs. When the music stops, they must quickly find a chair to sit in. Instead of just removing a chair each round, incorporate alphabet learning by calling out a letter or showing an alphabet flashcard when the music stops. Students should identify the letter and say a word that starts with that letter before sitting down. This combines physical activity with alphabet recognition and helps reinforce letter-sound associations in a fun, interactive way.

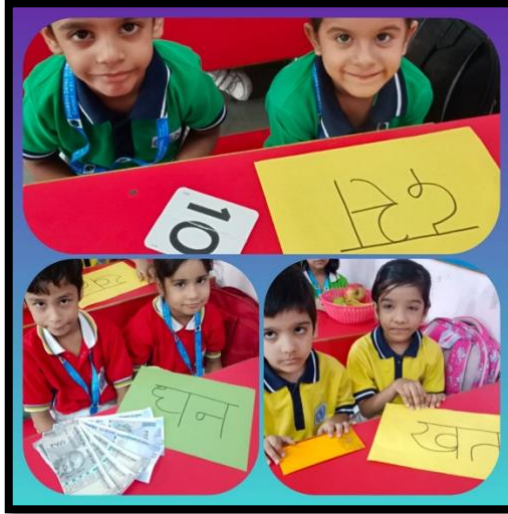

HINDI

दो अक्षर वाले शब्द

दो अक्षर वाले शब्द हिंदी भाषा के बुनियादी शब्द होते हैं जो बच्चे सीखने में आसानी से समझ सकते हैं। ये शब्द भाषा की नींव को मजबूत करने में मदद करते हैं और भाषा विकास के पहले चरण में महत्वपूर्ण भूमिका निभाते हैं।

MATHS

Trace the numbers

Tracing helps children become familiar with the shapes and forms of numbers. Regular tracing practice helps develop fine motor skills and hand-eye coordination. Overall, "Trace the Numbers" is a simple yet effective activity that supports early number learning and writing development through hands-on practice.

Numbers with Ice cream stick

"Numbers with Ice Cream Sticks" is an educational activity designed to help children understand and learn numbers in a hands-on and interactive way. Here's a brief summary of the activity. Using ice cream sticks helps children visualize and physically manipulate numbers and quantities, making abstract concepts more concrete. The activity is enjoyable and keeps children interested,

enhancing their motivation to learn.
